

Software Engineering

HUANG Jie

School of Software Engineering

Tongji University

2024

同濟大學
TONGJI UNIVERSITY

Course Objectives

- Master the key concepts, processes, activities, methods, tools and models of Software Engineering.
- Practice of course project design & development, including but not limited the following tasks, requirement modeling & analysis, software architecture design & modeling, detailed design, deployment, configuration and team management. At the same time, write down the relevant documents (e.g., feasibility study, requirements specification, design specification, source code, test cases & results etc.).
- Understand & master the Knowledge Areas/Modules/Points of Software Engineering Body of Knowledge(SWEBOK V3.0).
- Building development team for course project. The team consists of at least 2 & at most 4 students(including 4 people).

Teaching plan

- Course Duration: Sep.3th 2024 to Dec.25th 2024.
- Final Examination Date: TBD, by teaching affairs administrator of SSE.
- Scoring (100%=10%+10%+20%+60%)
 - Final Examination (60%, closed-book written examination)
 - Course Project Design & Development (20%)
(60% Documents + 40% on site Demo & Presentation)
 - Course Assignments (10%)
 - Course Attendance (10%)
- According to the university regulations, if one third(1/3) or more of attendance are absent, the student will not be allowed to take the final examination and will get a zero score.

Course project

- Innovation and entrepreneurship projects for college students, such as national innovation projects and shanghai innovation projects;
- Participate in real projects of the mentor's scientific research group, various vertical scientific research projects, and horizontal scientific research projects;
- College student competitions at provincial and ministerial levels and above.
- Regarding course projects, please pay attention to canvas's announcements in time.

Syllabus

Timetable of Software Engineering				
No.	Week	Date	Contents	Teacher
1	1	24' 9/3 & 9/4	From Program to Software	Huangjie
2	2	24' 9/10 & 9/11	The Nature of Software	Huangjie
3	2	24' 9/12	Software Engineering Architecture	Huangjie
4	3	24' 9/17 & 9/18	Software Process & Development Methods I	Huangjie
5	4	24' 9/24 & 9/25	Software Process & Development Methods II	Huangjie
6	4	24' 9/26	Blended Software Process Models	Huangjie
7	5	TBD	Human Aspects of Software Engineering	Huangjie
8	6	24' 10/8 & 10/9	Principles of Software Practice	Huangjie
9	6	24' 10/10	Software Requirement Engineering Fundamentals I	Huangjie
10	7	24' 10/15 & 10/16	Software Requirement Engineering Fundamentals II	Huangjie
11	8	24' 10/22 & 10/23	Obtaining Software Requirements I	Huangjie
12	8	24' 10/24	Obtaining Software Requirements II	Huangjie
13	9	24' 10/29 & 10/30	Analysing Software Requirements I	Huangjie
14	10	24' 11/5 & 11/6	Analysing Software Requirements II	Huangjie
15	10	24' 11/7	Expression & Verification of Software Requirement	Huangjie
16	11	24' 11/12 & 11/13	Test in class: Software Requirement	Huangjie
17	12	24' 11/19 & 11/20	Software Design Fundamentals I	Huangjie
18	12	24' 11/21	Software Design Fundamentals II	Huangjie
19	13	24' 11/26 & 11/27	Software Design Fundamentals III	Huangjie
20	14	24' 12/3 & 12/4	Software Architecture Design I	Huangjie
21	14	24' 12/5	Software Architecture Design II	Huangjie
22	15	24' 12/10 & 12/11	User Interface Design	Huangjie
23	16	24' 12/17 & 12/18	Detailed Software Design I	Huangjie
24	16	24' 12/19	Detailed Software Design II	Huangjie
25	17	24' 12/24 & 12/25	Course Review and Q&A	Huangjie
26	18	TBD	Final Examination	Huangjie
